RF-Diary	62.3	45.9	33.9	23.5	21.1	28.9	26.7	61.5	45.5	33.1	22.6	21.1	28.3	25.9

Summary

- RF-Diary enables captioning people's daily life in their home.
- RF-Diary uses radio signals as input to address the privacy issues of camera.
- RF-Diary achieves comparable results of camera-based captioning and keeps working under poor lighting or occluded scenarios.
